

SB-503 buffer machine

PCB
Automation
Developed
by Symtek

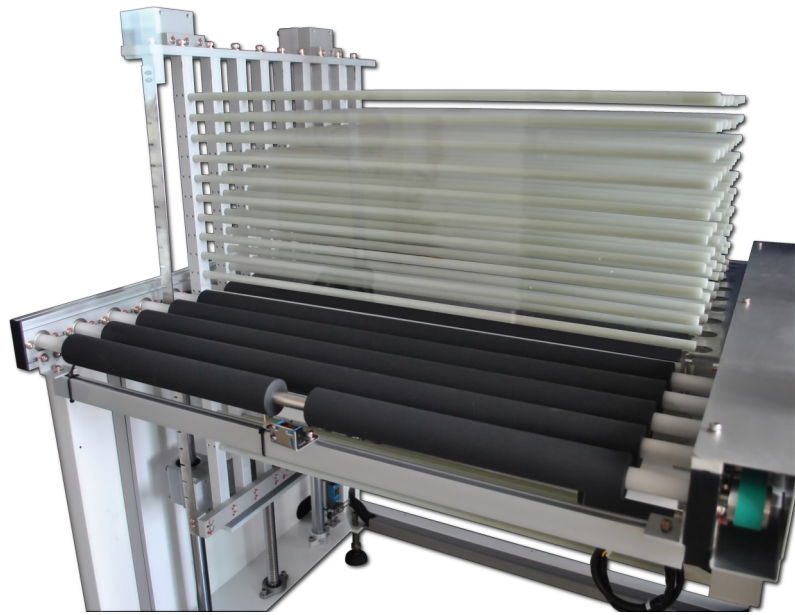

SUITABLE FOR

Buffering between any kind
of PCB processes.

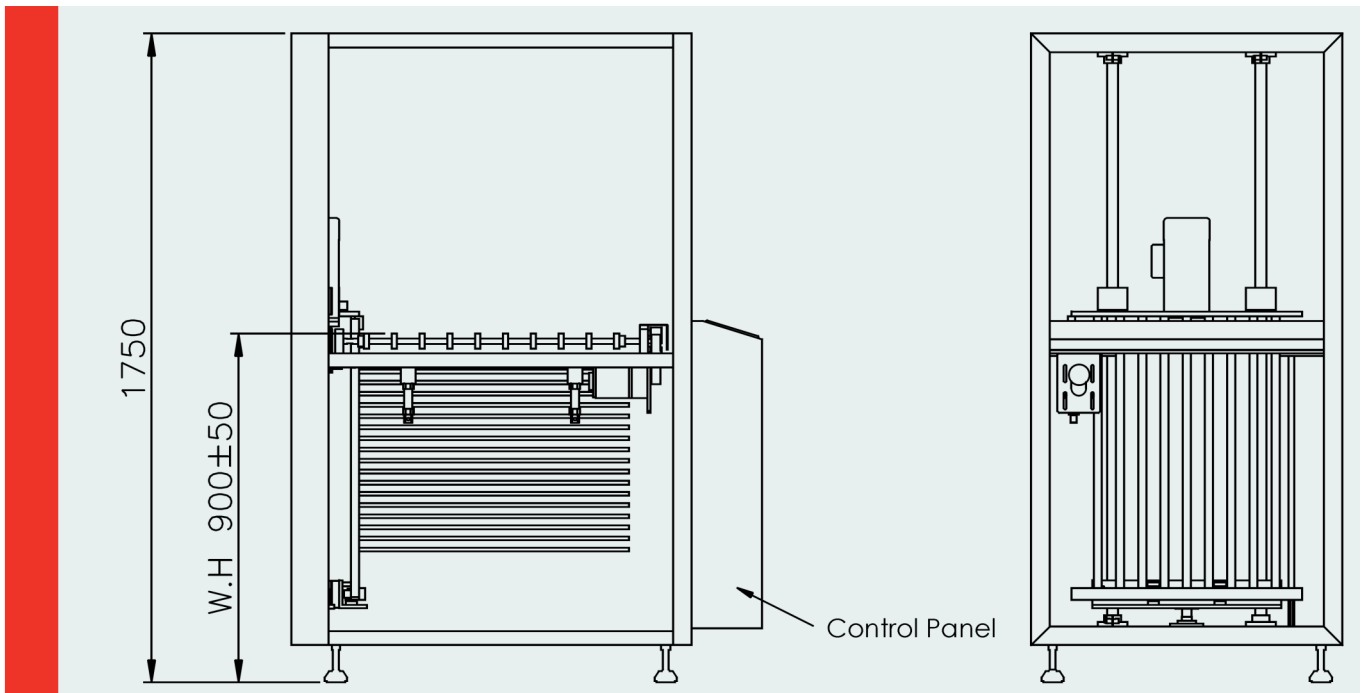

DESCRIPTION

- 1 provides the buffer function between two processes
- 2 the buffer capacity is 20 pcs
- 3 equipped with a mechanical detector that prevents damage to the boards when loading
- 4 great expanding ability to interlock between pre- and post-processes.

Buffer assembly

TYPE	SB-503
DIMENSIONS (LxWXH)	840x1270x1750 mm
WORKING HEIGHT	900 ± 50 mm
MAX. PANEL SIZE	610 x 610mm
MIN.PANEL SIZE	300 x 300 mm
PANEL THICKNESS	0.075 ~ 3.2 mm
THROUGHPUT	8 pcs/min
POWER	3Ph 220V 60Hz 0.5Kw Other power configurations available on demand.
AIR	0.6 Mpa 5 NL/min
